MAINTENANCE

MAINTENANCE ROPE

Rope requires hardly any maintenance and is easy to clean with clear water and pH-neutral soap. For spot cleaning, use a soft cloth with a mild soap & rinse the surface thoroughly with water.

MAINTENANCE TEAK

You can treat the teak table tops with a teak protector to maintain its natural honey-brown colour for a longer time. A teak cleaner can be used to restore the teak to its natural colour.

For regular cleaning you can use water and pH-neutral soap with a soft cloth or sponge.
