JCP.2 SERIES

Two series offers outdoor umbrellas that play a central role on your terrace. A true eye-catcher, providing up to 25 m² of shade. Thanks to a telescopic system, you can smoothly open and close the sturdy umbrella at arm height without touching other furniture. Despite their strength, the umbrellas are very mobile and are supported by a base of 158 kg with four wheels that rotate 360°. Each wheel is equipped with a brake to always secure the umbrella. They are the perfect solution to large outdoor areas because of their innovative design and taut incline.

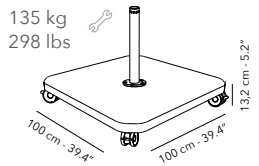
STEEL BASE

- Base with four wheels that rotate 360°, each with a brake to secure the umbrella.
- Has the same colour as the frame. We provide a charcoal parasol base for a frame in alu teak and cappuccino.



GRANITE BASE

- Base with four wheels that rotate 360°, each with a brake to secure the umbrella.
- Please note that the colour of the stone may vary slightly, as it is made from natural granite.

PROTECTION COVER

We suggest to always use the protection cover to protect your outdoor umbrella from poor weather conditions or when not in use during the summer. The stain resistant and water repellent cover will extend their life for you to enjoy your umbrella whenever you like.

To enhance the durability and appearance, we recommend following our care instructions regularly.

MAINTENANCE

To enhance the durability and appearance, we recommend following our care instructions regularly.

The umbrella should never be used in strong wind or rainy conditions. An open umbrella should never be left unattended.
The umbrella should be protected against blurring or damage by using its protection cover.
The protection cover can be placed over the umbrella and pole. Store the umbrella in a dry place when not in use.

FRAME & BASE

Clean the aluminium frame with a damp cloth, mild soap and water. Do not use any sharp tool to avoid scratches.

CANOPY

Before use, you can apply an invisible film to make the canopy stain and water repellent by using a textile protector.
You can maintain and clean your canopy by following a few simple steps:

- Brush off loose dirt before it becomes embedded in the fabric.
- Hose down.
- Spot clean soon after stains occur with water and mild soap or a textile cleaner (no detergents). Use a soft bristle brush to clean.
- Allow soap to soak in.
- Rinse thoroughly.
- Always let the canopy air dry completely before storing or covering.

Machine wash in cold water. Depending on wash load size, use normal amounts of mild laundry detergent and add 1 cup of bleach. Allow fabric to air dry.

NEVER SUBJECT TO EXCESSIVE HEAT, STEAM PRESS OR TUBLE DRY AS THE FABRIC WILL SHRINK.
